

## Twipes pairs with The Kitchen Studio to enhance customers' dining experience

The Kitchen Studio is a private dining space run by Chef Red Beard that serves between one and six courses for each dinner, seating up to 10 people. Chef Red Beard also takes the experience to his customers, offering in-home private dining, where he serves up to 20 people. Sachets of Twipes serve as a face-cleaning wet wipe option after patrons finish their meals, and the studio's bathrooms are stocked with our truly flushable, truly biodegradable wipes to provide a premiere, toilet friendly option for guests.

### A clean studio

"At the Kitchen Studio, we try to have an elevated dinner experience in one way, shape or form. Great food and ambiance, but also in the preparation of cleaning and making sure everything looks pristine for when people come in."

### High standards

"Having something at the ready that's fragranced really lightly, and helps clean up, whether it's your hands or your mouth, makes all the difference in maintaining the high standards we set at the Kitchen Studio."

### Shopping locally

"I like Twipes personally because as a local chef I try to shop, whether it's the farmers markets or local vendors, in Buffalo, try to acquire as much local products and feature them in the space... there really is no 'secret' ingredient in the kitchen." This commitment to local sourcing not only supports the community but also ensures that every aspect of his kitchen, including the cleaning process, aligns with his values.

### A waste-free kitchen

"Part of my magic in the kitchen is that there's zero waste, everything gets used in one way, shape, or form—whether you turn it into dog food or re-render excess fat for cooking purposes, utilizing products that you typically wouldn't think would go certain places. So having that local touch, whether it's food or something that helps clean up after food, to me, is pretty full circle."

### Versatility

"I'm just a wipes guy. I use wipes for my hands, my feet, my entire body. I also use them for my dog, to make sure that when he is in our space, he is absolutely clean. We want to make sure everyone feels as fresh walking out as they do walking in. Hopefully more full."
